

March 6, 2009

Dear Valued Customer:

It is our policy to continuously improve our product offering. This process, combined with regulatory changes and/or supply chain developments, occasionally requires that we discontinue a product. This notification provides information concerning:

- Reclassification of Aurora 2400 2.4 GHz licensed exempt microwave radio
- Reclassification of Aurora 5800 5.8 GHz licensed exempt microwave radio

Whenever Harris Stratex Networks (HSX) discontinues a product, HSX will make commercially reasonable efforts to provide Repair and Return (R&R) support for 10 years after the Maintenance Only reclassification date. R&R support includes:

- Repair Service
- Limited inventory of exchange units available
- Limited number of components/parts, unique to these products, available

RECLASSIFICATIONS:

Aurora 5800 5.8 GHz licensed exempt radio:

- Effective immediately, the Aurora 5800 licensed exempt radio is reclassified to “**Maintenance Only**” status and is no longer available for purchase.
- If you desire to purchase a 5.8 GHz licensed exempt radio, a replacement licensed exempt radio offered by Harris Stratex Networks, will be available. If you desire more information, please contact your Harris Stratex Sales Representative.

Aurora 2400 2.4 GHz licensed exempt radio:

- The Aurora 2400 licensed exempt radio was reclassified to “Maintenance Only” status in October 2008.
- If you desire to purchase a 2.4 GHz licensed exempt radio, a replacement licensed exempt radio offered by Harris Stratex Networks, will be available. If you desire more information, please contact your Harris Stratex Sales Representative.
